WINEENTHUSIAST

NOTES FROM THE WINEMAKER:

This vibrant enticing wine displays a medley of fruit on the nose, with tree fruit, citrus and pineapple. Bright and silky on the palate, this wine balances generous fruit flavors with a lively structure and lengthy finish. Best paired in the company of family and friends, MÉTIER has a balance of structure and approachability that can accompany a wide variety of foods.

Fermented to sugar & malic acid dryness with lees stirring and 8% new oak

THE SUN-SOAKED COLUMBIA VALLEY

of Washington State provides ideal growing conditions for wine grapes, with dramatic swings in temperature from day to night. This natural phenomenon, known as diurnal shift, offers cool nights that conserve acidity, and intense sunny days that infuse bold, ripe fruit flavors. The MÉTIER label celebrates this distinctive fruit and all of the diligent hands in the vineyard and cellar that meticulously craft our wines.
